

Nov.21: Tyrwhitt, Lookout, Whiskey Jack and Upper Pocaterra were all groomed but not trackset with many natural hazards found throughout. Hydroline groomed from Lookout to Tyrwhitt. Boulton, Fox Creek, Moraine, Packers and Wheeler were all snowmobile packed. Expect to encounter uneven terrain, protruding sticks, open creeks, exposed rocks and more. Warmer weather to hit Wednesday may change conditions. Nov 17. Elk pass trail was Groomed and Trackset with some random breaks in trackset due to natural hazards. Small branches, patches of dirt and small sticks will be encountered throughout. Single uphill-trackset only on Patterson trail with lots of small bushes poking through the tread. Blueberry groomed only from Elk Pass trail to approximately 200 meters from the top. Hydroline is groomed only.
