

Nov 21 Skogan Pass groomed and trackset above Marmot Jct . Groomed only below very thin and soft in places.

Ribbon Creek, Link, Hidden, Coal Mine, Hay Meadow and Troll Falls all roller packed. Expected warm condition over the next two days will leave variable conditions throughout.

Nov 20 10-15cm of new snow has freshened up the base around the Village area. New grooming today has been trackset for the most part and is in good early season condition. Caution is still advised on hills as there are rocks and dirt just under the base.

Bill Milne Roller packed to Wedge Nov 20. , Wedge Connector and Evan Thomas Fireroad. The fire road is very rough with lots of rocks. Best skiing on the Wedge Connector.

Ribbon Creek Area	Last Groomed
